

SCS3521 : Advanced Interviewing for Sportscasting

The Advanced Interviewing for Sportscasting course presents the vital elements and professional practices needed to conduct insightful and successful interviews. Interview preparation and execution strategies are broken down through step-by-step instruction, preparing students to thrive in any interview situation—from sit-down, long-form interviews to short, three-question sideline formats. Through analyzing real-world examples, students will identify critical strategies used in the industry. Students will be challenged to practice and hone their skills and adaptability in various simulated and authentic interview scenarios.
