

# GDM603 : Advanced Production Techniques

Building on knowledge and skills gained in earlier production courses, the Advanced Production Techniques course highlights the research and practice of production techniques and methodologies—both traditional and contemporary—focusing on those deployed in software production and project management. The curriculum offers insight into the various game organization, internal hierarchy, and operations unique to companies that students may encounter in the field. Students will conduct applied research to demonstrate their grasp of the management, workflow, and documentation of projects using modern administrative tools and systems.
