

ITEC222 : Professional Development Seminar II: Information Technology

In Professional Development Seminar II: Information Technology, students will continue an in-depth exploration of the information technology industry. With this newly acquired knowledge, students will create a career strategy map of their own and identify industry specializations and professional certifications they may pursue. Students will also learn how to evaluate, modify, and maintain their personal brand and professional social network. Guest lectures and continuing-education resources will provide students with insight into real-world professional experiences.
