CTI1105 : Computer Operating Systems

The Computer Operating Systems course explores the concepts of operating systems and how they interface with hardware and application software. Principles of kernels, processes, device drivers, file systems, and user permissions are examined. Students will understand how to install and configure various types of operating systems and how to use this knowledge to restrict access to certain users.
Credits 3
Course Length 4 weeks
Please note: This course must be successfully completed within 2-attempts. Students unable to successfully complete the course within 2-attempts will be dismissed from the program.
