

ITE359 : Project and Portfolio V: Information Technology

The Project and Portfolio V: Information Technology course combines hands-on learning experiences with summative and formative portfolio assessments. In this course, students will extend their existing project by applying their knowledge of database performance, distributed databases, and scripting configuration-management tools to deploy a cloud-based system on multiple nodes. Students will deploy a private cloud-based system with optimized database servers accompanied by a written project plan documenting the implementation and their design rationale.
