WDV229 : Project and Portfolio II: Web Development

The Project and Portfolio II: Web Development course combines hands-on learning experiences with summative and formative portfolio assessments. This course synthesizes usability, programming, and server-side technologies to enable students to design and build an interactive application. Students will apply principles of the software development life cycle to their project. They will also complete a written project plan documenting their work and present their results to their instructor and peers.
