

WDV339 : Project and Portfolio III: Web Development

The Project and Portfolio III: Web Development course combines hands-on learning experiences with summative and formative portfolio assessments. This course examines the process of implementing web technologies to extend existing projects by creating back-end web data sources and preparing application solutions for deployment. Students will leverage the knowledge gained from previous courses to implement workflows necessary for feature branching, code review, and factors of technology change management used in creating a web application. Students will also complete a written project plan documenting their work and results.
