

WDV349 : Project and Portfolio IV: Web Development

The Project and Portfolio IV: Web Development course combines hands-on learning experiences with summative and formative portfolio assessments. This course mirrors workflow models used in professional web development. Students will increase the security and functionality of their existing project by integrating access control permissions, user activity auditing, and cloud-native services. This course presents the framework for a cohesive web-application plan to accommodate testing of their project, performance remediations, and deployment of their project into a scalable test environment. Students will also complete a written project plan documenting their work and results.
