

WDV359 : Project and Portfolio V: Web Development

The Project and Portfolio V: Web Development course combines hands-on learning experiences with summative and formative portfolio assessments. In this course, students will strengthen their existing project by applying their knowledge of secure application development and web application metrics. They will update their written plan to include technical documentation, change management reviews, and detail indicating how their project complies with applicable regulations. In assuming the role of application manager, students will practice participating in a change advisory board to review their production changes in an effort to ensure the quality of their product release.
