

CYB3215 : Identity and Access Management

In the Identity and Access Management course, students will explore the importance of user identity, trust, access, roles, integrity, and auditing. They will examine the best practices of policies and procedures that ensure access to resources is based on least privilege. Students will apply principles of identity assurance, encryption, password policies, and multi-factor authentication through the implementation of identity management systems.

Credits 3

Course Length 4 weeks

Please note: This course must be successfully completed within 2-attempts. Students unable to successfully complete the course within 2-attempts will be dismissed from the program.
