

CYB359 : Project and Portfolio V: Cybersecurity

The Project and Portfolio V: Cybersecurity course combines hands-on learning experiences with summative and formative portfolio assessments. In this course, students will extend their working written security program plan to appraise the security life cycle. Students will evaluate phases of system life cycles and the effects of security practices implemented. They will continue to assess vulnerabilities, perform threat modeling, and develop process management plans. Students will expand their written plan to address system and software patch management.
