

CYB469 : Project and Portfolio VI: Cybersecurity

The Project and Portfolio VI: Cybersecurity course combines hands-on learning experiences with summative and formative portfolio assessments. In this course, students will evaluate their working security program plan for its efficacy as a comprehensive security program. Students will document security policies, roles, and responsibilities and establish baselines, monitoring, and control practices. The written plan will ultimately address technical documentation and change management, physical security, incident response and recovery protocol, and compliance with applicable regulations. Students will define the objectives of the plan and establish metrics to gauge its effectiveness.
