

Instructional Design and Technology Graduate Certificate

Degree Type

Graduate Certificate

Environment

online

Program Length

16 weeks

Overview

Full Sail University's Instructional Design & Technology Graduate Certificate will give you specific knowledge that can help you excel in competitive job fields. The certificate is comprised of several courses taken from our Instructional Design & Technology Master's Degree Program and is offered online to fit the schedule of working industry professionals. A bachelor's degree is a prerequisite for any of Full Sail's Graduate Certificates. Today's students are digital natives born at a time where technology is integrated into every aspect of their lives. To connect with them, teachers need to create innovative and inspirational environments that bridge the gap between traditional education and the ever-expanding realm of technology and media, to allow students to learn and grow. You'll learn to utilize media creation tools and technology to create video presentations, media assets, and more, and you'll study how to incorporate video games, music, and educational multimedia in your classroom. By engaging today's digital natives using the technology they use every day outside the classroom, you'll be able to create a more collaborative atmosphere inside your classroom.
