SHP3426 : Show Production Systems

The Show Production Systems course covers intermediate technical concepts as well as the skills required of today's live event–production teams. Classroom overviews of the equipment and of the signal flow within systems prepare students for future labs and production work. With a focus on the construction and interface of show-production systems, the course reveals the wiring and internal mechanisms of each major system component. Understanding these inner workings of industry gear will provide students great insight throughout their education and career.

Credits 4
Course Length 4 weeks
