Audio Arts Bachelor of Science Completion Program with a Concentration in Recording Arts

Degree Type
Bachelor of Science
Environment
campus
Program Length
36 weeks
Overview
The Audio Arts Bachelor of Science program is designed to develop the knowledge and skills of audio professionals in the entertainment and media industries. The program focuses on recording, music, and event production and provides students with a strong foundation of academic and hands-on coursework. After you complete the core Audio Arts curriculum, you will have the opportunity to choose a concentration in Show Production, Music Production, Audio Production, or Recording Arts. The Audio Arts curriculum offers threaded project and portfolio courses that provide you with a relevant and comprehensive project-based learning experience throughout your academic journey. Additionally, career readiness education provided in the program guides students through professional development, career planning, and entrepreneurship objectives applicable to the audio industry.
Objective
Bachelor's Objective Our goal is to provide you with a focused knowledge and understanding of essential skills to enhance your ability to qualify for entry-level industry positions in recording, songwriting, sound reinforcement, audio postproduction, lighting, music supervision, live video and multimedia, music composition, game audio, media scoring, and more, depending on your chosen concentration. In addition to academic mastery, technical proficiency, and creative development, it is our goal to help you develop critical-thinking, problem-solving, and analytical skills that contribute to lifelong learning, providing you with tools to help sustain a long and productive professional career in the entertainment and media industries.

Students enrolling in this completion program will also complete the [Audio Production Associate of Applied Science](#) degree program. [Apply today](#) to get started.
