

COS239 : Project and Portfolio III: Computer Science

The Project and Portfolio III: Computer Science course combines hands-on learning experiences with summative and formative portfolio assessments. This course revolves around a development project with an emphasis on teamwork and project planning and documentation. Students are also introduced to a software quality-assurance cycle with an emphasis on peer review and proper defect-reporting mechanisms. Student assignments include milestone planning, implementing features, and designing and implementing a quality-assurance cycle.
