

REC1732 : Sequencing Technology

The Sequencing Technology course explores the use of MIDI-based hardware and software in music production, live performance, and studio control. Musical Instrument Digital Interface (MIDI) is the electronic marriage of music and computer technology that revolutionized music composition, recording, performance, and arrangement. Students will be introduced to the history, principles, and varied uses of MIDI, as well as sequencing techniques, synchronization, troubleshooting, and MIDI system design. Students will survey the effect of MIDI on the modern recording-studio environment and examine live MIDI applications.
