

MCM3312 : Advanced Video

The Advanced Video course covers techniques and concepts of producing and editing digital video. The concept of visual storytelling will be explored and analyzed within various media applications to demonstrate the importance of constructing a fully developed idea using images. This course reviews the process of video editing throughout the entire development of a media project. There is an emphasis on image sequencing and story continuity and the use of visual effects, color correction, media management, narration, and industry terminology. Students will apply these concepts to a digital video project using technical skills that promote production value and showcase effective storytelling.
