

Class Size

Full Sail's philosophy is to put students in environments with optimal student to instructor ratios. To achieve this, the student to lab specialist ratio in lab settings can vary from six-to-one to twenty-four-to-one, depending on the degree program and the needs of students in a specific lab.

Lectures vary in size from course to course, but the maximum size for a degree program's core curriculum is 85. In lectures attended by students from multiple degree programs, the maximum number is 120. Although these are Full Sail's published maximum class sizes, most classes within the degree programs typically range between 36 and 85 students.

Online course sections are limited to a maximum of 25 students per instructor.
