

Dubbing Stage

Full Sail's Dubbing Stage is Dolby® certified, and is a fully functional, professionally designed post- production facility where student interns work with instructors to learn the intricacies of the post-production process. It's in this environment that all of a film's audio – from dialogue and sound effects to music – meets the final cut of the film.

With high-definition video projectors, Avid System 5 console, multiple Pro Tools HD systems, theater seats for private screenings, and an Oscar®-winning JBL theater surround sound system, this room is fully capable of handling the re-recording mixing for a major motion picture.
