

# COS359 : Project and Portfolio V: Computer Science

The Project and Portfolio V: Computer Science course combines hands-on learning experiences with summative and formative portfolio assessments. In this course, students will develop an application for mobile and/or wearable devices. Students will concentrate on the integration of networking, database, and mobile platform technology. Special attention will be paid to the functionality, usability, and practicality of the final product. By the end of this course, students will have an application ready for deployment on standard mobile devices.
