

DGT341 : Motion Graphics

The Motion Graphics course trains students in basic techniques of motion-graphics creation through the use of software programs employed by design and animation companies. This course emphasizes design from a problem-solving point of view and explores the production-timeline and graphical requirements of a motion-graphics project by demonstrating the manipulation of designed assets. In this course, students will gain a thorough understanding of animation techniques, special effects, image compositing, and motion graphics.
