NMJ570 : Digital News Production

The Digital News Production Course prepares students to work in the evolving media environment by introducing them to the theories, techniques, and skills used in online newsrooms and for news-related websites. The goal of the course is for students to develop the fundamental skills necessary to take assembled journalistic content and distribute the content across integrated platforms in the format of a newscast or news report. The course provides students the conceptual skills necessary to integrate interactive content and to present online journalism holistically.
