# SHP3215 : Audio and Visual Technologies

In the Audio and Visual Technologies course, students will be introduced to the rapidly growing field of audio and visual technologies for the live-production field. This course is dedicated to building confidence in the area of multimedia-conference meetings and corporate-presentation skills. The course familiarizes students with basic audio, lighting, and video technology used by today's audiovisual (A/V) event technician. Areas of study include breakout-room setups, video display systems, intercom communications, and video-switching procedures. Students will apply these skills in lab while setting up a simulated corporate multimedia event.
