

WDV3421 : Connected Devices and Applications

The Connected Devices and Applications course evaluates the consumption of web application services outside of traditional web browsers. Students will explore constructing web-based solutions to integrate with non-browser technologies such as mobile devices, wearables, gaming consoles, smart devices, and embedded systems. They will use various web-based technologies to create innovative solutions to align with contemporary security practices and performance demands of diverse endpoints.

Credits 3

Course Length 4 weeks
