

# Film and Video Certificate

## Degree Type

Certificate

## Environment

campus

## Program Length

28 weeks

## Overview

The Film and Video undergraduate certificate program immerses students in the fundamentals of digital video and film production for a variety of outlets. Course topics span digital filmmaking, media tools, scriptwriting, motion-picture history, and postproduction. By utilizing the latest tools available to today's media developers, students will learn how to create content for online media, mobile devices, and independent films. Additionally, the Film and Video certificate curriculum introduces film and video terminology and production trends to structure students' understanding of digital content creation and storytelling. Students will learn the fundamentals of script formatting, structural techniques, and character development as well as basic multimedia platform delivery. A focus will be placed on the elements of postproduction theory and practice, and students will develop problem-solving strategies to apply to the logistical, aesthetic, and technical components of presenting a story.

## Objective

**Certificate's Objective** The Film and Video certificate program provides students with foundational knowledge in digital video and film production relevant to current technology and media formats. Students will gain practice with the narrative devices and terminology of the field, grow creatively, and foster the technical flexibility to adapt within the entertainment and media industries. The program is designed to develop students' formal skill set and prepare them for entry-level positions in the areas of web video, independent video production, and media creation.
